*Unmasking the secret alien life on earth*

## The Alien Book

### A Guide to Extraterrestrial Beings on Earth

**Nick Redfern**

The Greys are the classic aliens: black-eyed, large-headed, dwarfish beings. They have become a staple part of pop culture, never mind just the field of UFO research. They've appeared in Steven Spielberg's classic 1977 movie, *Close Encounters of the Third Kind*. They regularly popped up in *The X-Files*, and numerous people across the world claim to have been abducted by the Greys. Yet, before the 1950s, the Greys were nowhere in sight. Covering hundreds of different extraterrestrial life forms, ***The Alien Book: A Guide to Extraterrestrial Beings on Earth*** investigates the full range of sentient, alien life forms from the benign to downright deadly. Some are small germs or viruses, and some are as big as Goliath.

Regardless of the form they take, they all have one thing in common: the human race has encountered them. This absorbing book takes an in-depth look at the numerous mysteries of aliens on earth.

**Nick Redfern** is a journalist, cryptozoologist, ufologist, and best-selling author of numerous books on conspiracies and unexplained mysteries, including Visible Ink Press' *Secret History; Cover-Ups & Secrets; Control;* and *Area 51*. He has been a frequent guest on TV shows exploring the conspiracies and the unexplained, including the History Channel's *America's Book of Secrets, Ancient Aliens, Monster Quest*, and *UFO Hunters*; the Science Channel's *The Unexplained Files*; the National Geographic Channel's *Paranatural*; the BBC's *Out of This World*; and the Syfy Channel's *Proof Positive*.
